SUBJECT INDEX
1989, Volume 62

Ablation, transvenous, of atrioventricular conduction with low energy power source (Rowland *et al*). 361
Acromegaly, subclinical cardiac dysfunction, evidence for specific disease of heart muscle (Rodrigues *et al*). 185
Adenosine
  efficacy and safety in treatment of supraventricular tachycardia, infants and children (Till *et al*). 204
  values and limitations in diagnosis and treatment of narrow and broad complex tachycardias (Rankin *et al*). 195
Ambulance staff trained in cardiopulmonary resuscitation, integration with medical prehospital coronary care (McCrea *et al*). 417
Amiodarone, intravenous, clinical efficacy in short term treatment of recurrent sustained ventricular tachycardia and ventricular fibrillation (Schützenberger *et al*). 367
Angina
  chronic stable, with myocardial ischaemia, variable effects of angiotensin converting enzyme inhibition (Gibbs *et al*). 112
  pectoris, unstable, haemorrheological abnormalities, independent of risk factors and severity (Neumann *et al*). 421
  Randomised Intervention Treatment Trial protocol, long term study of coronary angioplasty and coronary artery bypass surgery; British cardiology (Henderson), 411
  unstable, reduction of risk in ex-smokers (Robinson *et al*). 16
Angiotensin converting enzyme inhibition, variable effects on myocardial ischaemia in chronic stable angina (Gibbs *et al*). 112
Anticardiolipin syndrome, findings at necropsy in the heart (Murphy & Leach). 61
Aortic arch, hypoplastic right retro-oesophageal, similarities to interrupted aortic arch; case report (Knight). 477
Aortic
  compliance, regional, studied by magnetic resonance imaging, effects of age, training, and coronary artery disease (Mohiaddin *et al*). 90
  regurgitation associated with hypertrophic cardiomyopathy, colour Doppler echocardiographic study (Shiota *et al*). 171
  stenosis, inaccuracies in using aortic valve gradients alone to grade severity (Griffith *et al*). 372
    replacement with combined myocardial revascularisation (Jones *et al*). 9
    stenosis, congenital, balloon dilatation, infants and children, short term and intermediate results (Vogel *et al*). 148
Atheroma, human, chemical shift magnetic resonance imaging (Mohiaddin *et al*). 81
Atrial
  isomerism, cross sectional echocardiographic anatomy of common atrioventricular valve (Arisawa *et al*). 291
  natriuretic peptide, and hypertrophy of heart, during rest and exercise (Svanegaard *et al*). 445
    plasma, in myocardial infarction, effects of streptokinase: correspondence (Tan *et al*). 238
  septal defect, successful repair, associated with right to left shunting (Hossack *et al*). 69
Atrioventricular
  conduction, transvenous ablation, with low energy power source (Rowland *et al*). 361
  nodal reentrant tachycardia, multiform ventricular tachycardia development during: case report (Bennett & Coyle). 220
Atrium, right, malignant melanoma, antemortem diagnosis by transvenous biopsy: case report (Gosalakkal & Sugrue). 159

Balloon dilatation *see* Percutaneous transluminal coronary angioplasty
Blalock-Taussig shunt, modified, (polytetrafluoroethylene) balloon dilatation (Parsons *et al*). 228
British Cardiac Society members and industry, relations between 235

Calcific stenosis of mitral valve xenograft in chronic renal failure: case report (Raftery *et al*). 161

Cardiology
  modern British, roots (Krikler). 230
  staffing, United Kingdom 1988 (Chamberlain *et al*). 482
Cardiomyopathy
  hypertrophic, identical twins (Reid *et al*). 384
  idiopathic dilated, and HLA antigens (Limas & Limas). 379
Cardiopulmonary resuscitation and treatment with streptokinase and heparin, fatal intrathoracic haemorrhage after: case report (Haugeberg *et al*). 157
Cardiovascular research crisis, Britain (Oliver). 325
Churg-Strauss syndrome
  cardiac involvement shown by echocardiography (Morgan *et al*). 462
  heart transplantation for: case report (Thomson *et al*). 409
Cigarette smoking and non-fatal myocardial infarction in women, is relation independent of coronary artery disease? (Freedman *et al*). 273
Coarctation of the aorta, magnetic resonance imaging, infants, use of high field strength (Baker *et al*). 97
Collateral vessels, protective effect, during coronary angioplasty (Norell *et al*). 241
Colour flow
  imaging in diagnosis of multiple ventricular septal defects (Sutherland *et al*). 43
  mapping value in diagnosis of ventricular septal rupture after myocardial infarction (Smyllie *et al*). 260
  see also Doppler colour flow
Common atrioventricular valve in atrial isomerism, cross sectional echocardiographic anatomy (Arisawa *et al*). 291
Congenital heart block associated with Ro antibody (Behan *et al*). 320
Coronary
  artery disease, diagnosis, exercise tests, three methods compared (Deckers *et al*). 438
    patterns in post-infarction ventricular septal rupture (Skehan *et al*). 268
    phase-ventriculograms (Lyons *et al*). 102
    and smoking, reduction of risk after giving up (Robinson *et al*). 16
  care team, medical, integration with trained paramedics (McCrea *et al*). 417
Corrections 240, 328
Correspondence
    Changes in transmitral velocities with heart rate (Channer & Jones). 415
    Plasma atrial natriuretic peptide in patients with acute myocardial infarction: effects of streptokinase (Tan *et al*). 238
    Prognostic significance of programmed ventricular stimulation in survivors of acute myocardial infarction (Cripps *et al*). 489
    Pulmonary capillary haemangiomatosis (Langleben). 239
    Radionuclide measurements of diastolic function for assessing early left ventricular abnormalities in the hypertensive patient (Schneeweiss). 237
    Timing of treatment with oxygen radical scavengers and its influence on perfusion injury (Ambrosio). 490
Crisis in cardiovascular research, Britain (Oliver). 325
Crohn's disease with infective endocarditis: case report (Wong). 163

Cross sectional echocardiography
anatomy of common atrioventricular valve in atrial isomerism (Arisawa *et al*). 291
early mitral flow velocity profiles from colour Doppler (Samstad *et al*). 177
images, quantitative effects of speckle reduction (Massay *et al*). 298

Diabetes mellitus as risk factor for myocardial infarction, Asians and Europeans (Woods *et al*). 118
Diastolic function
after heart and heart-lung transplantation (Hausdorf *et al*). 123
impairment by shortened filling period in severe left ventricular disease (Ng & Gibson). 246
Digital left ventriculograms, phase and amplitude analysis, coronary disease (Lyons *et al*). 102
Diurnal variation of pulmonary artery pressure in chronic heart failure (Gibbs *et al*). 30
Doppler colour flow mapping
elucidation of congenital fistula between left ventricle and coronary sinus: case report (Gnanapragasam *et al*). 406
intraoperative, value in complex intracardiac shunting operations: case report (Sutherland *et al*). 467
prosthetic valve regurgitation (Chambers *et al*). 1
pulmonary artery pressure in ductus arteriosus (Houston *et al*). 284
gradient variability in pulmonary valve stenosis before and after balloon dilatation (Lim *et al*). 212
Ductus arteriosus
pulmonary artery pressure, Doppler flow characteristics in assessment (Houston *et al*). 284
responsiveness to prostaglandin E_1 assessed by combined cross sectional and pulsed Doppler echocardiography (Hiraishi *et al*). 140

Electrogram, epicardial, in assessment during balloon angioplasty incorporating monophasic action potentials recordings (Taggart *et al*). 342
Endomyocardial fibrosis, clinical course (Gupta *et al*). 450
Exercise
tests, diagnosis of coronary artery disease, three methods compared (Deckers *et al*). 438
testing and inotropic stimulation in assessing cardiac pumping capability (Tan *et al*). 20

Fistula, congenital, between left ventricle and coronary sinus, elucidation by colour Doppler flow mapping: case report (Gnanapragasam *et al*). 406
Flecainide in supraventricular tachycardia, paediatric use, clinical efficacy and pharmacokinetics (Till *et al*). 133

Haemolytic anaemia, severe, after mitral valve replacement by St Jude medical prosthesis: case report (Feld & Roth). 475
Heart
and heart-lung transplantation, diastolic function after (Hausdorf *et al*). 123
failure, chronic, diurnal variation of pulmonary artery pressure (Gibbs *et al*). 30
rate, changes in transmitral velocities: correspondence (Channer & Jones). 415
transplantation for Churg-Strauss syndrome: case report (Thomson *et al*). 409
Heparin and streptokinase treatment, and cardiopulmonary resuscitation, fatal intrathoracic haemorrhage after; case report (Haugeberg *et al*). 157
HLA antigens in idiopathic dilated cardiomyopathy (Limas & Limas). 379
Hypertension
pulmonary, study of nerves containing peptides, pulmonary vasculature, infants and children (Allen *et al*). 353
radionuclide assessment of early left ventricular abnormalities: correspondence (Schneeweiss). 237
Hypertrophic cardiomyopathy, associated with aortic regurgitation, colour Doppler echocardiographic study (Shiota *et al*). 171
Hypertrophy of heart, and atrial natriuretic peptide, during rest and exercise (Svanegaard *et al*). 445
Hypoplastic right retro-oesophageal aortic arch, similarities to interrupted aortic arch: case report (Knight). 477

Infective endocarditis in Crohn's disease: case report (Wong). 163
Inotropic stimulation and exercise testing in assessing cardiac pumping capability (Tan *et al*). 20
Intracardiac shunting, intraoperative Doppler colour flow mapping: case report (Sutherland *et al*). 467
Intrathoracic haemorrhage, fatal, after cardiopulmonary resuscitation and treatment with streptokinase and heparin: case report (Haugeberg *et al*). 157

Left main coronary artery dissection, successful balloon angioplasty after failed surgery: case report (Ramsdale & Schofield). 400

Magnetic resonance imaging
chemical shift, of human atheroma (Mohiaddin *et al*). 81
of coarction of the aorta, infants, use of high field strength (Baker *et al*). 97
at high field strength of ventricular septal defects, infants (Baker *et al*). 305
studying regional aortic compliance, effects of age, training, and coronary artery disease (Mohiaddin *et al*). 90
Map-guided endocardial resection, and revascularisation in recurrent ventricular tachycardia associated with anomalous left coronary artery from pulmonary artery: case report (McComb *et al*). 396
Melanoma, malignant, of right atrium, antemortem diagnosis by transvenous biopsy: case report (Gosalakkal & Sugrue). 159
Mitral
flow velocity profiles, early, cross sectional, from colour Doppler (Samstad *et al*). 177
valve replacement by St Jude medical prosthesis, severe haemolytic anaemia after: case report (Feld & Roth). 475
xenograft, calcific stenosis, in chronic renal failure: case report (Raftery *et al*). 161
Multiform ventricular tachycardia development during atrioventricular nodal reentrant tachycardia: case report (Bennett & Coyle). 220
Multigated pulsed Doppler system in assessment of orifice diameter in children with congenital semilunar valve stenosis (de Knecht *et al*). 50
Mustard operation, transposition of great arteries, right ventricular function after 10 years (Redington *et al*). 455
Myocardial infarction
cardiac parasympathetic activity during early hours (McAreavey *et al*). 165
changes in flow properties of white blood cells after (Nash *et al*). 329
diabetes mellitus as risk factor, Asians and Europeans (Woods *et al*). 118
estimation of risk of death during first year from systolic time intervals during first week (Northover). 429
non-fatal, and cigarette smoking in women, is relation independent of coronary artery disease? (Freedman *et al*). 273
post-partum: case report (Movsesian & Wray). 154
plasma atrial natriuretic peptide, effects of streptokinase: correspondence (Tan *et al*). 238
prognostic significance of programmed ventricular stimulation: correspondence (Cripps *et al*). 489
reduction of risk in ex-smokers (Robinson *et al*). 16
ventricular septal rupture after, colour flow mapping value in diagnosis (Smyllie *et al*). 260
